

Airless Paint Sprayer(Heavy Duty)

Features:

- **Electric motor** : 1500 W, single phase, 220 V, 50 HZ
- **Motor Type** : Brushless Motor
- **Pressure Controlling** : Electronic. Pressure is non fluctuating thanks to smart motor controller
- **Max Pressure** : 210 Bar
- **Suitable for** all types of medium viscosity non corrosive domestic paints like Apex, Enamel Etc.
- Suitable for **covering large areas** in less time hence cuts down on labour cost. Has **minimum overspray** resulting in minimum paint wastage, less air pollution
- Suitable for **continuous / heavy** duty jobs.
- Max hose length 60m (Horizontal)

Accessories :

- Hose (15m),
- suction trunk,
- spray gun with extension wand and tip
- Tool Kit
- Oil Bottle
- Spare O rings for suction trunk

Airless Paint Sprayer

Features:

- Carbon Brush motor : 1000 W, single phase, 220 V 50 HZ
- Ideal Working Pressure 120 - 170 Bar
- Suitable for all types of medium viscosity non corrosive domestic paints like Apex, Enamel Etc.
- Portable and Lightweight - 17 Kg
- Higher Productivity - Suitable for covering large areas, has minimum overspray hence cuts down on labour cost

Accessories :

- Hose (12m)
- suction trunk,
- spray gun with extension wand and tip
